Invitation for Expressions of Interest for Environmentally Preferred Power Projects

Addendum No. 1

The following Addendum shall be attached to and form part of the Invitation for Expressions of Interest for Environmentally Preferred Power Projects and related documents.

1. On page 3, **Section 3.1, Expression of Interest Invitation,**

Delete the following paragraph:

“SaskPower invites parties interested in the second phase of the EPP Program to declare their interest in writing by submitting, as a minimum, the Expression of Interest Form attached in Appendix “B” to this Invitation on or before **15:00 hours CST, March 15, 2005** to:”

And replace with:

“SaskPower invites parties interested in the second phase of the EPP Program to declare their interest in writing by submitting, as a minimum, the Expression of Interest Form attached in Appendix “B” to this Invitation on or before **15:00 hours CST, March 22, 2005** to:”

2. On page 3, **Section 3.2 General Requirements of Expressions of Interest,**

Delete the following sentence:

“SaskPower intends to advise parties by **May 3, 2005** whether or not their project qualifies to participate in the May 2005 RFP for Environmentally Preferred Power.”

And replace with:

“SaskPower intends to advise parties by **May 10, 2005** whether or not their project qualifies to participate in the May 2005 RFP for Environmentally Preferred Power.”

3. In Appendix A, **Table 1: SaskPower EPP Solicitation - Environmental Eligibility Criteria,**
Environmental Criteria for BIOMASS/BIOGAS,

Delete the following:

“The combustion technology must not exceed the upper limit (6) for total load points as described in the Environmental Choice December 8, 2001 Draft “Guidelines on Renewable Low-Impact Electricity”

And replace with:

“The combustion technology must not exceed the upper limit of 6 for total load points as described in the Environmental Choice Program, Certification Criteria Document CCD-003 for Electricity – Renewable Low-impact dated December 15, 2003 published by TerraChoice Environmental Services Ltd.”

4. In Appendix A, **Table 1: SaskPower EPP Solicitation - Environmental Eligibility Criteria**, Environmental Criteria for FLAREGAS,

Delete the following:

“The combustion technology must not exceed the upper limit (6) for total load points as described in the Environmental Choice December 8, 2001 Draft “Guidelines on Renewable Low-Impact Electricity”

And replace with:

“The combustion technology must not exceed the upper limit of 6 for total load points as described in the Environmental Choice Program, Certification Criteria Document CCD-003 for Electricity – Renewable Low-impact dated December 15, 2003 published by TerraChoice Environmental Services Ltd.”

All other terms and conditions will remain the same.

Please acknowledge this Addendum in your Expression of Interest.
