

ADDENDUM

SaskPower

Environmentally Preferred Power Projects

Inquiry No. – WE/385

Addendum No. (3)

The following addendum shall be attached to and form part of the specification and related documents.

SaskPower has replaced the document titled “Non-Utility Generation Interconnection Requirement at Voltages 25 kV and Below” with a new document titled “Generation Interconnection Requirements at Voltages 34.5 kV and Below”. This document is referenced in RFP – Environmentally Preferred Power Projects, Inquiry No. – WE/385 and as such, the following revisions to the RFP shall be made;

1. In section 4.2, replace “All EPP Projects interconnected at voltages 34.5 kV and below must meet SaskPower’s interconnection requirements as stipulated in *Non-Utility Generation Interconnection Requirements at Voltages 25 kV and Below*¹. A copy of this document is available on the SaskPower web site at the following address: <http://www.saskpower.com/aboutus/tanddfac/over100.shtml>”
with
“All EPP Projects interconnected at voltages 34.5 kV and below must meet SaskPower’s interconnection requirements as stipulated in *Generation Interconnection Requirements at Voltages 34.5 kV and Below*. A copy of this document is available on the SaskPower web site at the following address:
<http://www.saskpower.com/powerandenvironment/transmission/ppover.shtml>”
-

2. In section 5.1.1, replace “The process for making an application for a PIS is applicable to all EPP Projects, no matter what the interconnection voltage is. To initiate a PIS for their proposed EPP Project, Proponents must fully complete the Request for Preliminary Integration Study application form that is provided in the SaskPower document entitled ***Non-Utility Generation Interconnection Requirements at Voltages 25 kV and Below*** (or replacement document).”

with

“The process for making an application for a PIS is applicable to all EPP Projects, no matter what the interconnection voltage is. To initiate a PIS for their proposed EPP Project, Proponents must fully complete the Request for Preliminary Integration Study application form that is provided in the SaskPower document entitled ***Generation Interconnection Requirements at Voltages 34.5 kV and Below...***”.

3. In section 5.2, replace “**Projects Interconnected at 34.5 kV and Below** For successful projects interconnected at voltages 34.5 kV and below, Proponents must submit a Request for Formal Integration Study application as outlined in Section 1.8 of the *Non-Utility Generation Interconnection Requirements at Voltages 25 kV and Below* (or replacement document).”

with

“**Projects Interconnected at 34.5 kV and Below** - For successful projects interconnected at voltages 34.5 kV and below, Proponents must submit a Request for Formal Integration Study application as outlined in Section 1.8 of ***Generation Interconnection Requirements at Voltages 34.5 kV and Below.***”

4. In Appendix 1, replace “**Interconnection Requirements** Interconnection Requirements shall mean the SaskPower documents entitled “Non-Utility Generation Interconnection Guidelines at Voltages 25 kV and Below” and “Non-Utility Generation Interconnection Guidelines at Voltages 72 kV and Above”, as applicable, as updated and published by SaskPower from time to time.”

with

“**Interconnection Requirements** Interconnection Requirements shall mean the SaskPower documents entitled “***Generation Interconnection Requirements at Voltages 34.5 kV and Below.***” and “Non-Utility Generation Interconnection Guidelines at”

[Voltages 72 kV and Above](#)”, as applicable, as updated and published by SaskPower from time to time.”

All other terms and conditions to remain the same.

You are to acknowledge receipt of this Addendum in your proposal.
