Date: \_\_\_\_\_

Meter Installation

A separate application for meter installation must be made to 1-888-SKPOWER (757-6937) when the Consumer’s wiring is complete and service is required.

Conditions of Service Checklist

- [ ] All necessary easements, land rights, and approvals can be obtained.
[ ] Consumer to supply a meter socket, as per the “Electric Service Requirements”, to be located: [ ] indoors [ ] outdoors
[ ] Consumer to supply an outdoor splitter box sized as per the “Electric Service Requirements” to accommodate \_\_\_\_\_ conductors.
[ ] Consumer to install SaskPower supplied instrument transformers as per the “Electric Service Requirements”. Consumer supplied cabinet will be readily accessible for maintenance with a means of sealing by SaskPower.
[ ] All cable routes must be free of obstructions and final grade is to be indicated before construction commences.
[ ] This service will be put into account billing and will be subject to minimum bills when the meter is installed or sixty (60) days after service has been made available, whichever is sooner.
[ ] Consumer to advise SaskPower of any abnormal site conditions, including those that may preclude a buried service.
[ ] Other Conditions:

Rebate Details

Should this electrical extension be utilized by another Consumer within a period of five (5) years from the time of installation, the Consumer shall be entitled to a construction charge rebate based on shared line costs.

Applicable [ ] Non-applicable [ ]
